## Angry Birds Destroy Homes

By Jefferey Hoodaman  
DECATUR, MI -- Decatur police responded to an emergency call Wednesday morning after large birds smashed into several houses on Willow Street. There were no reports of injury but multiple homes sustained heavy damages.

Decatur resident Stephen Leonard witnessed the attacks as he was walking his dog. "All of a sudden there's this loud squawking noise," Leonard, told *The Flipside*, "and I look up and see a huge red bird just as it smashes into the house across the street. And let me tell you, that bird

was angry. Like, really, really furious."

The United States Department of Homeland Security has raised the terror alert level to "red" in reaction to a string of angry bird attacks across the country. Homeland Security Secretary Michael Chertoff spoke at an emergency press conference

on the imminent danger that the birds pose. "Let me be clear: we are dealing with terrorists here," Chertoff said during an emergency press conference, "and unless we as Americans change our attitudes, every standing structure in the country risks being toppled by these winged evil-doers."

Chertoff urged citizens to flee their homes if they notice these rotund and enraged creatures hurtling towards them at top speeds.

## Guess What? I Just Found A Piece of Cheese In My Beard!

Quinn Price  
Guest Opinion

And fine swiss cheese, no less! What a treat for the both of us! I'll brush off the mold from right there... Oh, and look at all the scraggly hairs stuck in there! Let me just pull a couple of those out and... look at this, we're just absolutely golden! This must have been from last week

when I was eating that hunk of cheese in my apartment.

Well, this delightful little nugget of deliciousness looks far too scrumptious not to be shared. Would you care to join me in consuming this delectable and unexpected treat? ...What? You won't? Well, are you absolutely certain? Hmmm... Very well, but I shan't be put-

ting this cheese to waste. There's starving children in Africa, after all. Down the hatch!

Mmm... salty and slightly sour, just the way I love it. Yum! That really hit the spot. Wait, what's that you say? There's something else sticking out of my beard? Well then, let me just fish around... what's this? Oh my, you'll never believe this! By golly, it's a peso! And I haven't even been to Mexico since 2007. Ha!
