

Thousands Miss Outdoor Show; Assumed it was Actually Outdoors

Good ideas do not come around very often. So brace yourself for a brilliant idea: the DHS Outdoor Show.

Considering the recent success of outdoor related retail stores in Deerfield, such as Moosejaw and Orville, having an entire show dedicated solely to outdoor products seems like a no-brainer. Oh yeah, and the outdoor show is all indoors.

The economic savvy gym department organized this Warren Buffet quality business venture. Their logic was as clear as the sky that could not be seen because everything was indoors.

Spokesman Art "Rate" Monitor issued the following press release.

"Deerfield town folk just love spending time outdoors. We are a town of hikers, not video game players. We are a town that goes to the beach, not to tanning salons. We love the outdoors, especially when it is so unbelievably cold, windy, and icy that we must go indoors."

The price of admission was, in my humble opinion, a stroke of genius. Only five dollars to possibly win a raffle to get half off kayak lessons! That's what I call a bargain. This economy is

in desperate need of such profitable ventures and great options to spend a hard earned five dollars. Even better, kids under six come in for free. And who, if not six year olds, appreciate the patience required for bass fishing?

Moreover, who, if not six year olds, can sit through ADD-creating fishing demos and stare at fishing poles while never actually being able to fish? Of course, you actually have to go outside to fish.

Speaking of fish, I am glad we ordered enough. Although the young Einstein's who ran

what turned out to be the equivalent of the Chicago World's Fair of 1893 were expecting anywhere from 5,000 to 500,000 attendants, they ordered enough fish for all of Iceland just to be safe. With a small army of student athletes who wanted to be pretty much anywhere else in the entire world making up the staff, the Outdoor Show lived up to all the Lebron Jame's level hype.

I am surely not alone in stating I cannot wait for next year's show. May I suggest possibly having the Outdoor show in May? Or never.

DHS Faculty in Need of Ride Pimping

DEERFIELD, IL— Any logical person would look at the DHS parking lots and assume that the nicer cars belonged to the teachers and the students own the "crapsmobiles." In Deerfield, they would be wrong.

Why is this? The answer probably won't shock you.

Being a Deerfield teen pays better than being a teacher.

"I work 5 hours a week at Jamba Juice as a fruit juicer," says Sam Bradford, a DHS senior and proud owner of a BMW X5. "I don't remember how much my car cost, but I do remember I got a good deal on it because I know some people... and my parents are loaded."

Sam, like many other DHS students, lives a golden luxurious life thanks to left-over Bar/Bat Mitzvah funds, babysitting well-off families, glamorous part time jobs, and let's face it, loaded parents.

"I don't understand how a

prisoner could have a nicer car than a guard," DHS English teacher and metaphor enthusiast Sandra Hoy tells Flipside reporters. "I drive the practical Toyota Camry, but my students drive the even more practical and cool Camry Hybrid... and the not so practical but still awesome Hummer."

"When I turn 16, I'm getting a 2009 ZR1 Chevrolet Corvette with the LS9 6.2L engine, sun roof, and 620 horse power," says Freshman Ryan Garcia.

"When I retire, I'm buying the 2009 ZR1 Chevrolet Corvette with the LS9 6.2L engine, sun roof, and 620 horse power," says DHS math teacher Aaron Tomer. "I can't get it now because I have a family to support and another kid to put through college," Tomer says.

"I can't get it now because I'm not 16," added Garcia.

DHS Border Patrol Tightens

Deerfield, IL – Due to a recent increase in foreign students attempting to enter Deerfield High School without identification, the school has been forced to increase border security. Dean No has begun to conduct random ID checks throughout the bus lobby and cavity searches in the front entrance, but the outsiders continue to slip into the school under his ice-cold grip.

Certain measures are a clear success. The Equity and Excellence program is keeping our border defense diverse. The wiretapping cell phones clause has turned up many possible aliens, as well as news that she really did hook up with him. The intimidation policy now includes border patrol guards carrying two fake guns instead of one.

Many different options have been presented as ways to cope with these "illegal" students,

which are causing a flurry of debate among students and faculty alike. The full spectrum of opinions has been heard, from the lenient to the extreme.

On one hand, junior Barbie O'Dwyer believes that "we shouldn't punish the illegal students because we're totally cooler than they are so they just make me look better! Plus they're already inside the grounds, so we might as well just let them stay."

In the opposite direction, senior Brock Donoughy argues, "They're taking up all the spaces in the classes I want to be in. I think we should build a fence around the school to keep them out. Wait, we have already done that." No matter what happens, I think both sides can agree that it would be great if the deans could give a warning once and a while...
